

ADYPU Practicals Evaluation Schema

Overview

- **Total Marks:** 15 per practical
- **Total Questions:** 11 (6 Website Building + 5 n8n Workflows)

IMPORTANT NOTE: For website building using Lovable, students have limited credits. Use prompts carefully and thoughtfully. Plan your website structure before writing prompts. Avoid multiple iterations as each prompt uses credits. Write detailed, complete prompts from the start.

Evaluation Rubric (Total: 15 Marks)

1. Abstract/Introduction

What to include:

- What you are building (website or workflow)
- Brief overview of your approach

2. Tools and Technologies Used

For Website Building:

- Which AI tool you used for building the website (Lovable.dev, Bolt.new, v0.dev, or similar)
- Which AI tool you used for creating/refining prompts (ChatGPT, Claude, Gemini, etc.)

For n8n Workflows:

- Which AI tool you used for creating prompts for LLM nodes (ChatGPT, Claude, Gemini, etc.)
- Which services you connected (Google Sheets, LinkedIn, Twitter)

3. Prompts Used

For Website Building:

- Mention the prompt that was given to Lovable. Or any AI Building Applications

For n8n Workflows:

- Write down the prompts used in LLM nodes.

4. Architecture and Design Documentation

Website Building Projects:

- Create a detailed **website blueprint/architecture** using **Napkin AI**
- The blueprint should include:
 - Overall system architecture
 - Page structure and navigation flow
 - Component hierarchy

n8n Workflow Projects:

- Create a clear **data flow diagram** using **Napkin AI or any other AI tool**
- The diagram should include:
 - Workflow architecture
 - Node connections and data flow

5. Functionality Description

For Website Building:

Briefly explain what features your website has and why. Keep it simple and to the point.

For n8n Workflows: Explain your workflow:

- List all nodes you used (Trigger node, HTTP node, LLM node, etc.)
- Explain what each node does
- How data flows from one node to another
- How the final output is created

6. Output and Demonstration

What to include:

For websites:

- Screenshots: Minimum 6-8 clear screenshots showing different parts
 - Homepage or main screen
 - Important features in action
- Deployed Link: Working website link or n8n workflow file

For n8n:

- Show workflow design and execution results
 - Provide the Json for the created workflow
-

Submission Guidelines

Google Form for Submission

Form Title: ADYPU Practical Submission Form

Form Fields:

1. **Student Name** (Required)
2. **Roll Number** (Required)
3. **Section** (Required)
4. **Question chosen** (Required)
5. **Report PDF** (Required)
6. **Submission of web url** - deployed lovable link

OR

7. **Submission of n8n jSON file**
